

WTEC Minutes
June 4, 2012

Present: Valerie Walsh, Joe Amoroso, Mervyn Haines, Laramie Traina, CJ Sinko,
Dave Shoudy, Ken Short

Absent: Mark Napolitano, Frank Ferraro, James Dengel

1. Discussed water test results – need to compare with state standards.
2. Discussed USR Optonix – no formal application has been submitted to Township, aside from the soil clean-up. It was agreed that there was nothing exceedingly hazardous was in the contaminated soil, approximately 6-8 truckloads of waste.
3. Ken Short gave update on following issues (discussion for most of meeting)
 - * the removal of rocks from the river near Bartley Road to prevent flooding;
 - * the failing septic systems near that location and on Schooleys Mountain near the closed bar;
 - * and the installation of an additional cell tower by the police station. This new tower would not involve any road creation, as it would be accessed by existing road..
4. Update on the easement issue – WTEC stuffed envelopes with conservation easement notices and information. Additional info to be added by township personnel before mailing out to residents.

Meeting Conclusion
