

Cooperative Emerald Ash Borer Project

Movement of EAB regulated articles **cannot** exit **Federal quarantine boundaries** without Federal permits.

Movement of EAB regulated articles **within** **Federal quarantine boundaries** (excluding **protected areas**) does not require Federal permits but may require State permits.

Check for and follow any relevant interior State EAB quarantine regulations before moving regulated articles.

For more information: 866-322-4512

Map Key

-  Federal quarantine boundaries
-  Protected area restricted for interstate and intrastate movement and permits are required
-  Area subject to Michigan Department of Agriculture and Rural Development regulatory policies

DISCLAIMER: These data, and all the information contained therein, have been collected by the U.S. Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) or by its cooperators or APHIS staff, for exclusive government purposes only and is the sole property of APHIS. Data may be disseminated on a need-to-know basis only and must be used for those intended government purposes. All information contained within these data are subject to required Federal safeguards and all only be shared and/or used consistent with the Trade Secrets Act [18 U.S.C. 1905], the Privacy Act of 1974, as amended [5 U.S.C. 552a], the Freedom of Information Act [5 U.S.C. 552], the confidentiality provisions of the Food Security Act of 1985 [7 U.S.C. 2273], Section 1616 of the Food, Conservation, and Energy Act of 2008 [7 U.S.C. 8791], and other applicable Federal laws and implementing regulations, as well as with the confidentiality or non-disclosure provisions of any other agreement entered into between APHIS and a cooperator.

Table 6.1. Interstate movement of regulated articles from quarantined areas.

Regulated Article	Mitigation and Treatment Measures
Firewood of all hardwood species	<ul style="list-style-type: none"> • Remove bark and an additional ½ inch of wood¹ or • Kiln sterilization treatment (T404-b-4) or • Heat treatment (T314-a) in a heat treatment facility approved by APHIS or • Fumigate according to treatment schedule T404-b-1-1 (Methyl bromide fumigation at NAP-tarpaulin or chamber) or Apply an APHIS approved method ² .
Chips and Mulch of all hardwood species	<ul style="list-style-type: none"> • Chip or mulch to less than one inch in at least two dimensions or • Follow an APHIS approved mulching or composting protocol or Apply an APHIS approved method ² .
Nursery Stock of <i>Fraxinus</i> spp. itself	No treatment available. No compliance agreements. No certification. This article is not being moved at this time.
Green lumber of <i>Fraxinus</i> spp. itself	<ul style="list-style-type: none"> • Remove bark and an additional ½ inch of wood¹ or • Kiln sterilization treatment (T404-b-4) or • Fumigate according to treatment schedule (404-b-1-1 (Methyl bromide fumigation at NAP-tarpaulin or chamber) or Apply an APHIS approved method ² .
Logs of <i>Fraxinus</i> spp. itself	<ul style="list-style-type: none"> • Remove bark and an additional ½ inch of wood¹ or • Kiln drying treatment for logs <3" dia.(T404-b-4) or • Heat treatment (T314-a) in a heat treatment facility approved by APHIS or • Fumigate according to treatment schedule T404-b-1-1 (Methyl bromide fumigation at NAP-tarpaulin or chamber) or Apply an APHIS approved method ² .
Other material including wood waste, living, dead, cut or falling including stumps, roots, branches of <i>Fraxinus</i> spp.	<ul style="list-style-type: none"> • Chip or mulch to less than one inch in at least two dimensions or Apply an APHIS approved method ² .
WPM containing regulated green lumber, including but not limited to, dunnage, crating, pallets, packing blocks, drums, cases, and skids.	<ul style="list-style-type: none"> • ISPM accredited treatments or • Treatment/mitigations for green lumber of <i>Fraxinus</i> spp. itself as listed above or Apply an APHIS approved method ² .

¹ The bark and wood removed will be regulated separately. If intended for interstate movement the removed bark and wood must be treated as described in Table 1 for chips and mulch. If produced at a mill located outside the quarantine area but approved to handle green ash logs or lumber from within the quarantine area, wood waste must be treated or destroyed prior to adult flight season.

² Consult Local USDA APHIS Official or State Plant Health Director.
