Home Fire Safety Checklist

Home fires in the United States number over 1,000 a day. How safe is your home from fire? Have the whole family study these questions and check for fire hazards. Every "No" points to a fire hazard.

MATCHES AND CARELESS SMOKING HAZARDS

Do you keep matches away from sources of heat such as stoves or heaters? YES NO

Do you make sure matches and smoking materials are out before disposing of them? YES NO

Do you have plenty of large, non-combustible ashtrays in every room? YES NO

Is "No smoking in bed" a rule in your home? YES NO

ELECTRICAL HAZARDS

Do you allow only qualified electricians to install or extend your wiring? YES NO

Are there enough electrical outlets in every room to avoid the need for multiple attachment plugs and long extension cords? YES NO

YARD AND GARAGE HAZARDS

Do you keep your yard cleared of leaves, debris and combustible rubbish? YES NO

If any of the surrounding property is vacant, have weeds, dry leaves and rubbish been cleared off? YES NO

If you keep gasoline for use in a power mower or outboard motor, is it stored in a strong, metal safety-type can with self-closing caps on the openings? YES NO

If your garage is attached to the house, is it separated by a tight-fitting door, which is kept closed? YES NO

HOUSEKEEPING HAZARDS

Do you keep your basement, closets and attic cleared of old rags, papers, mattresses, broken furniture and other combustible odds and ends? YES NO

After using oily polishing rags or waste, do you destroy them or place them in covered metal cans? YES NO

If you store paint, varnish, etc., do you keep the containers tightly closed? YES NO

HOME APPLIANCE HAZARDS

Do you always turn off the stove/oven before leaving the kitchen? YES NO

Do you always turn the dryer off before leaving your home? YES NO

Do you always clean the lint tray in your dryer before each use? YES NO
WHAT YOU AND YOUR FAMILY SHOULD DO IN CASE OF FIRE.

1. Don’t panic – escape may depend on clear thinking.
2. Get out of the house following the planned escape routes, if possible. Do not stop to collect valuables or dress.
3. Open doors carefully only after feeling them to see if they are hot. If they are, do not open.
4. Keep close to the floor, smoke and hot gases rise. Breathe through a cloth if possible.
5. Keep doors and windows closed unless it is necessary to open them for escape.
6. Meet at your pre-established meeting place after leaving your house.
7. Call your fire department as soon as possible from outside the building. Give your address and name.
8. Never re-enter a burning building.

You need to answer "YES" to all the following questions to increase your chances of surviving a house fire.

Do you test your smoke detectors once a month? [ ]
Do your family have a drawn escape plan of your house, showing all exits? [ ]
Are smoke detectors on every level of your home and in all sleeping areas? [ ]
Does everyone in the family know at least 2 escape routes from every room? [ ]
Does your family practice your escape plan at least twice a year? [ ]
Do all smoke detectors have working batteries? [ ]
Do you have a meeting place outside of the home for all family members to gather in case of fire? [ ]
