

JANUARY IS

NATIONAL

RADON

ACTION MONTH

The **Washington Township Health Department**
in cooperation with the State of NJ

is pleased to be able to offer radon test kits*

Free of Charge to Washington Twp. residents

(with proof of residency ... limit 1 per household ...while supplies last).

Kit includes: test canister; instructions; pre-paid mailer;
and lab testing. Results are sent directly to the homeowner.

*Test kits are available at the Wash. Twp. Health Dept. 43 Schooley's Mtn. Rd.

The Health Department
urges all Washington Twp.
residents to test their homes
for radon during the winter.

This is the best time
to get an accurate
radon reading since,
during this season,
many homes are
closed and sealed
of all drafts.

*How radon
enters a house*
